

STATISTICAL FRAME OF REFERENCE (COVID-19)

POPULATION AND HEALTH

"According the Center for Disease Control and Prevention, COVID-19 is a new disease and there is limited information regarding risk factors for severe illness. Based on available information and clinical expertise, older adults and people of any age who have serious underlying medical conditions might be at higher risk for severe illness from COVID-19."

2018 ESTIMATED MID-YEAR POPULATION 65 YEARS AND OVER

16,743
